

### REMARKS

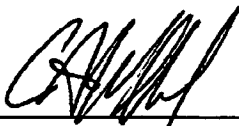

Applicant notes that the gist of missing Figure 26 is disclosed in the patent application previously incorporated by reference and in the words of the Detailed Description. Therefore, applicant elects to maintain the original application date and delete references to Figure 26. Applicant submits amendments that comply with option III according to the Notice to File Corrected Application Papers of October 30, 2003.

Upon reviewing the Notice to File Corrected Application Papers, applicant notes that the Patent Application made by Margaret Brown, Marc Freeman, and John R. Lewis, application number 10/441,916, applied for May 19, 2003, commonly assigned herewith and incorporated by reference, as originally designated was inadvertently identified by an incorrect title. Applicant has included correction of the title of that Patent Application with this preliminary amendment.

Applicant further submits formalized drawings in compliance with 37 CFR 1.84 and 37 CFR 1.121.

Applicant submits that no new matter is being submitted. The Examiner is invited to contact Mr. Christopher A. Wiklof at (425) 415-6641 with any issues that may advance prosecution of the application on the merits.

Respectfully submitted,

---
